

# Nakamura Shigeru

Sr Fullstack Engineer

## Introduction

Nakamura is an ambitious professional who is always eager for new, difficult problem solving as well as solid background of software engineering and electrical engineering for the last 5 years in industry level of experience.

His experience as a senior software lead and project manager let him to have a strong background of fundamental knowledge in traditional software engineering, but also the new coming latest technologies.

He is well-respected among st industry-leading companies as a skilled developer who truly understands the client infrastructure and pain points. His dedication and detail orientation are the core traits of him. Also he has successfully worked with numerous clients to define requirements, design new system elements, implement new functionalities, and optimize existing system.

Fishing, playing basketball and drinking beer is his only hobby :)

Best regards,

Nakamura Shigeru.

## Education

### Master of Computer Science

Tsinghua University

2013 – 2017
