Dear Hiring Manager,

I am excited to apply for the **Senior Front-End Engineer** position at your company. With over 7 years of experience in front-end development, I have a proven track record of building dynamic, high-performance applications using **React**, **JavaScript**, **TypeScript**, and **Next.js**. My experience spans designing robust, user-centric solutions, optimizing front-end performance, and providing leadership in agile environments. I am confident that my skills and passion for front-end engineering would make me a valuable asset to your team.

At **Loblaw Digital**, I successfully **led the design and development** of high-performance advertisement systems using **Next.js** and integrated them seamlessly with **Spring Boot** to manage complex business logic for e-commerce pricing and promotions. I also spearheaded performance optimizations, achieving a 30% improvement in **API response times**, and implemented **CI/CD pipelines** with **GitLab** and **Jenkins**, enabling faster and more reliable deployments. My experience in leading cross-functional teams, mentoring junior developers, and creating comprehensive documentation has helped foster collaboration and drive project success.

Previously, at **PayPal**, I migrated legacy components to a modern design system, improving scalability and maintainability. I also **led a team of engineers**, driving a 30% increase in overall productivity and reducing project delivery times by 50%. Through my leadership and focus on process improvement, I optimized **CI/CD workflows**, **Jenkins**, and **GitHub Actions**, reducing build times and increasing automation.

As a **Senior Front-End Engineer**, I am passionate about creating interactive and scalable user interfaces. I have a deep understanding of **React**, **Redux**, **GraphQL**, and **Webpack**, and I am always focused on building efficient, maintainable solutions. I am eager to bring my skills in front-end development and my leadership experience to your company, where I can help drive innovation and deliver exceptional web applications.

Thank you for considering my application. I look forward to discussing how my background, skills, and experience can contribute to the success of your team.

Sincerely,

Anooshervon Rahmatov
